Dear Mr. Weisberg,

Congratulations! Your book is a tremendous work of deductive reasoning and evaluation. I cannot tell you how stimulating and revealing your analysis is of the Warren Report - to my husband and myself!

We have but one thing to conclude from your courage in attacking this all but ticklish subject - that is, there should be more people like you. Those who are not afraid to speak out & have the courage to stand up and say what they think - in front of the world are in the minority in this country - we need more like you! Constructive and analytical criticisms are rarely heard today - for the most part, it is degrading, propaganda filled and backstabbing we are subjected to. But you are well aware of all these things of course.

Thank you again for your tremendous courage in "Whitewash."

Sincerely,  
Mr. & Mrs. Richard Bishop
